OBJECTIVE

How do customers perceive current experiences

What experiences do they seek

How do customers differ in their experiential expectations

EMOTIONAL ASSOCIATIONS

FUNCTIONAL EXPECTATIONS

WORD OF MOUTH

EXPERIENTIAL SEGMENTS

CREATING ADVANTAGE

HOW

Terragni Consulting
Engagement Maximized

EMOTIONAL ASSOCIATIONS

LONG RUNNING RELATIONSHIP WITH A BANK IS NOT INDICATIVE OF AN EMOTIONAL ASSOCIATION

Exit barriers based on functional convenience and industry constraints can easily be addressed if so desired. Hence relationships rooted in these are hardly sustainable

CUSTOMERS DO NOT HAVE A STRONG EMOTIONAL ASSOCIATION WITH ANY OF THE PREMIUM BANKING PROGRAMS

No particular bank drives strong emotional association in the category, consistently. Negligible differentiation

EMOTIONAL ASSOCIATION SIGNIFICANTLY STRONGER WITH THE INDIVIDUAL THAN WITH THE BRAND

Customers consistently have to rely on the Relationship Manager(RM) to deliver superior outcomes

EMOTIONAL ASSOCIATION WITH BURGUNDY BY AXIS NOT STRONG ENOUGH TO BE AN EXIT BARRIER

Associations with Burgundy appear around the median, in some cases positive, in some cases negative but none strong enough to be a differentiator

AT AN EMOTIONAL ASSOCIATION STRENGTH OF 4.2*, BANKING SERVICES HAVE THE QUICKEST POSSIBILITY TO BE CONVERTED INTO A STRATEGIC DIFFERENTIATOR

Burgundy customers find services related to loan rates, locker fees, family benefits most relevant

***NOTE: 4.2 ON A SCALE OF 0-10**

OPPORTUNITIES

Given the commonality of offerings by all banks, Axis has the opportunity to create a competitive differentiator based on the **consistent execution** of a strong emotional connect

This emotional connect has to manifest consistently across all touchpoints, processes and deliverables beyond communication

Axis (location) was very inconvenient to me. One of the best thing that happened with Axis is they send somebody to collect my cash, collect my cheque

Gender Female
Age 45-55
Age With Burgundy 1-1.5 Years

Some people have come across wondering about where to start banking they asked me and immediately I have suggested them Kotak. If you ask me why I may not be able to give you that answer because It is sitting in this the back of the head that it(Kotak) is better, how better I don't know

Gender: Male
Age: 45-55
Age With Burgundy: 2-3 Years

Sometimes I think I should close the Burgundy account and use the amount to invest in small banks because I didn't take any benefit from the Burgundy segment and the benefits I asked for they didn't provide…

Gender Male
Age 55-65
Age With Burgundy 1.5-2 Years

I joined Burgundy with the perception that just to get the normal banking things done easily and without a headache

Gender Female
Age 35-45

FUNCTIONAL EXPECTATIONS

I want what I want, when I want it

On Demand

I want my "banking" transactions to be stress free

Zero Friction

I WANT WHAT I WANT WHEN I WANT IT

Non-banking offers/rewards/gifts promised but not delivered

Not seen as pro-active

Portfolio of wealth management and investment products , services & digital touchpoint features seen as limited

Gap in awareness of the full features, functions and benefits of the program

FRICTION FREE

Inconsistent, unexplained charges on facilities perceived as benefits of the program

Inconsistent responses to queries , issues across RM, Branch, Customer Support

Multiple follow-ups

RM unable to provide end-to-end support and assistance

I WANT WHAT I WANT WHEN I WANT IT

I don't see the difference I will tell you why I am saying that when you want to opt for share/trading account or you want to go for some car loan or you want to go for some home loan the offer they will make is the common offers… Then you have to remind them they are talking to the burgundy customer then they say will work out something for you. So, it is not by design, it is by push.

Gender: Male
Age: 45-55
Age With Burgundy: - Above 2-3 years

Tried to book movie ticket via BookMyShow but the transaction failed; it sent me one time password but the OTP never comes to me on my mobile. But for all the other activities it comes. It happened once and again I tried after 2-3 months and again the same case; started using SBI card for payment

Gender: Male
Age: 35-45
Age With Burgundy: 1-1.5 Years

FRICTION FREE

Understand that security is the primary concern but the way card gets locked out, transactions are knocked off, I can't do the cash transaction, I was unable to book hotel; can't even pay for baggage at the airport; it takes 2 hours to search the counter where I can make cash payment

Gender: Female
Age: 35-45
Age With Burgundy: - 1.5-2 Years

Whenever sent mail to Axis, sends reply with same prototype. I sent 25 emails to Axis and receive the same response. Even if you are writing to the Nodal officer still you will receive same response

Gender: Male
Age: 45-55
Age With Burgundy: Above 3 Years

DIGITAL TOUCHPOINTS

I WANT WHAT I WANT WHEN I WANT IT

68% prefer to interact via digital channels (App/portal)

On an average, customers interacting with the bank via digital channels interact **three to four times more often** than those interacting via RM

53% of customers using the digital platform said that they don't face any issues in Digital banking

FRICTION FREE

Complex Log-in/Log out processes

Complex transaction processes

Time consuming

Lack of intuitive user-friendly guidelines

Short session spans

Lack of interoperability

DIGITAL TOUCHPOINTS

I WANT WHAT I WANT WHEN I WANT IT

The mobile app is not operating when you change your network or place. Which is inevitable when you travel…..

Gender: Female
Age: 35-45
Age With Burgundy: 1.5-2 Years

whenever I do net-banking every time whenever I enter the customer ID every time have to generate the new password and that is very cumbersome I tried to have a fixed password, but I am not able to use the fix password every time I have to login for net banking through my debit card only

Gender: Female
Age: 45-55
Age With Burgundy: - 6 months- 1 Year

FRICTION FREE

Axis is not registered on MCA website; For net banking other banks option is available there but axis as a option is not available; and only using ICICI credit card you can do the payment other bank credit card are not allow to use

Gender: Male
Age: 35-45
Age With Burgundy: Above 3 Years

RELATIONSHIP MANAGER

I WANT WHAT I WANT WHEN I WANT IT

Only able to help with basic banking activities

Very supportive when customer wants to avail a new product/service under Burgundy

FRICTION FREE

Unable to make customers aware of the full program

Unable to provide issue resolution support beyond follow-ups on behalf of the customer

Unable to provide any form of service recovery

RELATIONSHIP MANAGER

I WANT WHAT I WANT WHEN I WANT IT

sometimes relationship manager is not available, they were on leave, we have to do at our end because her/his juniors don't have the training, they may not train enough to get your things …..maybe you should have a system where you have more than 1 Burgundy manager in the branch and if possible, they are available when you need or maybe the whole bank should give directly service to the Burgundy customer without relationship manager

Gender: Male
Age: 45-55
Age With Burgundy: Above 3 Years

FRICTION FREE

RM doesn't have access to Axis Direct, sometimes he suggest that this fund is good, it has fared well, but I might not have time to follow up all these things. Axis direct part loses visibility with relationship manager, I have to pull a report of that separately for quarterly discussion. …., but all are from the direct parent company, it make sense, to give merger of everything…..

Gender: Male
Age: 35-45
Age With Burgundy: 1-1.5 Years

Informed RM to renew the FD; received SMS & email regarding FD foreclosure; How did this happen?? When I clearly told RM to renew the FD not to foreclose…. Even RM didn't know how did that happen… But I am facing the loss; bank didn't' even try to fix thinsg…

Gender: Male
Age: 45-55
Age With Burgundy: - Above 3 years

CUSTOMER SUPPORT

I WANT WHAT I WANT WHEN I WANT IT	FRICTION FREE
Difficult to connect with	Unable to understand the problem / issue
High resolution times	Multiple follow-ups
Inability to provide solutions	
Lack of knowledge	

The friction experienced by Burgundy customers is the same as that experienced by any other Axis Bank customer

RM is being consumed in negating this friction

CUSTOMER SUPPORT

I WANT WHAT I WANT WHEN I WANT IT

My mobile number was linked with another account, and that could not resolved more than 8 months; visited the branch, met the relevant people but still not resolved the issue

Gender: Male
Age: 35-45
Age With Burgundy: Above 3 Years

Through Axis I purchased some L&T fund, its value is around 21-22 thousand. how to redeem that value? everybody is saying no, AMC also denied. I have to redeem that Demat from where I purchased it, but from where I got it that person doesn't have mutual fund selling license; Axis unable to help me? What to do now? How to redeem the fund"

Gender: Male
Age: 45-55
Age With Burgundy: - Above 3 years

FRICTION FREE

Whenever sent mail to Axis, sends reply with same prototype. I sent 25 emails to Axis and receive the same response. Even if you are writing to the Nodal officer still you will receive same response

Gender: Male
Age: 45-55
Age With Burgundy: Above 3 Years

BRANCHES

I WANT WHAT I WANT WHEN I WANT IT

Gaps in knowledge on

- Features & services
- Processes & limitations
- Statutory regulations

FRICTION FREE

Error prone execution of transactional instructions

Unable to recognize a Burgundy customer, unless specifically indicated as such by the customer

Lack of customer centricity (cooperation and attention)

BRANCHES

I WANT WHAT I WANT WHEN I WANT IT

At the time of demonetization, Axis bank levied some charges; but branch don't know what all those charges are; due to these charges I requested to close the account (Current account) they should understand that they are losing their customers due to such charges. If the customer is closing accounts, it's obviously bank's loss, not the customer's

Gender: Male
Age: 45-55
Age With Burgundy: - Above 3 Years

FRICTION FREE

Every time I need to do RTGS, I need to put a stamp on the back, It doesn't make any sense. What does that matter, you have a cheque leaf, you have my signature what will that stamp do? This is head ache for me, I need to take it out every day, get it stamped

Gender: Male
Age: 35-45
Age With Burgundy: Above 3 Years

LONG RUNNING RELATIONSHIP WITH A BANK IS NOT INDICATIVE OF AN EMOTIONAL ASSOCIATION

EMOTIONAL ASSOCIATION SIGNIFICANTLY STRONGER WITH THE INDIVIDUAL THAN WITH THE BRAND

CUSTOMERS DO NOT HAVE A STRONG EMOTIONAL ASSOCIATION WITH ANY OF THE PREMIUM BANKING PROGRAMS

EMOTIONAL ASSOCIATION WITH BURGUNDY BY AXIS NOT STRONG ENOUGH TO BE AN EXIT BARRIER

PHASES	INVESTMENT								
Actions	Approached by Axis bank for buying insurance; denied to purchase	Not approached by the bank for any other services; No calls received from the relationship manager (RM) regarding investment option	ICICI RM approached for new product "****"	Checked with the Axis; No options available	Searched for investment fund; could not find desired fund options to invest via Axis website	Found desired option with ICICI and invested accordingly	Discussed investment portfolio with RM; RM Advised some short term investment options.	Visited portal to download detailed investment report	Requested relationship manager (RM to share the report); also checked on Moneycontrol
Touchpoints									MoneyControl
Thoughts	Right now don't see any requirement will reconsider in the future	Has the RM lost interest because didn't buy suggested insurance the first time? Why customer has to demand service! Need time to make a final decision , doesn't mean not interested in product. Will the bank provide service to only those customers who will buy their wealth products??	Wow! This is a nice program, could invest in bouquet of products with more convenience. Returns seem interesting too...wonder if Axis has something similar.. don't remember the RM mentioning anything like this.... Let's search for something similar with Axis....Then can consolidate everything with them	Why they don't have such products? If ICICI can do this, why not Axis... now have to invest with multiple banks; don't have time to track and keep update on everything	Why are the funds not available via Axis? If they are present with other bank, then why not in Axis? Thankfully can invest through spouse's account. Hopefully Axis will have them in future.	Thankfully can invest through my ICICI account and could invest in time. Axis only wasting my time; Why don't they have innovative investment features? Why every time have to check with RM only?? ICICI is better than Axis;	Why did the RM suggest only short term investments? Short term investments will not give good return; What about the long term investment??Axis RM should approach on long term investments as well; It's better to not rely completely on RM; do own research and start the investment	The downloaded report is not detailed enough. I am not able to do much analysis of my investments on the portal too. In spite of having a good digital platform why customer is unable to download the detailed breakup of investment. Can RM share the detailed report??? Or should check on MoneyControl... Their portal is better	If MoneyControl can give a detailed report, why not Axis?? Have to rely on the RM for the detailed report; If RM can generate the report on the system, why can't the customer get the same report on their own?? Have to ask RM for report every month! This is unnecessary effort for me!
Emotions	Neutral	Unhappy	Hopeful	Unhappy	Dissatisfied	Unhappy	Unhappy	Unhappy	Unhappy
Emotion Description		Unhappy due to the lack of communication and information sharing		Unhappy due to getting better service from other bank	Dissatisfied due to being unable to find the desired options	Unhappy due to getting desired service from other bank	Unhappy due to the lack of help from the Axis team in terms of long term investments	Unhappy due to getting less detailed report	Unhappy due to getting better service from third party organizations

ICICI RM Website Branch Burgundy RM

PHASES	FIXED DEPOSIT					
Actions	Approached by bank for buying insurance; denied to purchase	Received a call from Relationship manager once in a month	Branch informed about possibility of better rates on renewing FD	Requested RM to renew the FD	One week prior to FD maturity received SMS & email regarding FD foreclosure	Called RM to check; RM doesn't know what happened…
Touchpoints						
Thoughts	Right now don't see any requirement will reconsider in the future	RM is a nice person but only makes courtesy calls! Then what is need for RM? Can do banking online! Nothing is really process driven. What a customer should get as a regular customer service, they are giving as Burgundy	Sounds great; Let's do that, either way money will grow	Don't have time to do all of this; better to inform RM and ask to renew the FD; will save time as well as RM will do it on time…	What is this?? Requested to renew the FD not to foreclose it… Did RM not understand what was told? Will now have to face a loss of 15-16K… will bank waive off the loss since it is RM's mistake or will I have to suffer.	RM himself doesn't know what bank processes are happening then how can I rely on them to get the job done…thought it would save time but instead will have to waste more time correcting this mistake… Don't know whether bank will own up their mistake…
Emotions	Neutral	Dissatisfied	Hopeful	Satisfied	Angry	Frustrated, Distrustful
Emotion Description		Dissatisfied due to approach to relationship management			Angry due to unexpected loss and lack of guarantee of bank support	Frustrated, Distrustful unable to trust RM, possibility of facing loss

DESIRED EXPERIENCE:

RM (Facilitator)
- Decision execution
- Prompt Issue resolution
- Proactive updates
- Contextual updates regarding offerings and services

Highly averse to inconsistency

High digital affinity

Prefer self service

Operational Roadblock

- Lack of mutual funds options available with the bank
- Unable to download the spending analysis shared by the relationship manager
- Lack of branch staff clarity on the instructions given

Inconsistency with the brand promise

- RM unable to engage beyond the immediate need
- RM unable to provide any form of service recovery

Inconsistency with customer desire, needs and wants

- Digital touchpoints seen as lacking in features
- Lack of reliability of systems

Opportunities

Innovative products & touchpoints for financial management, wealth management, convenience

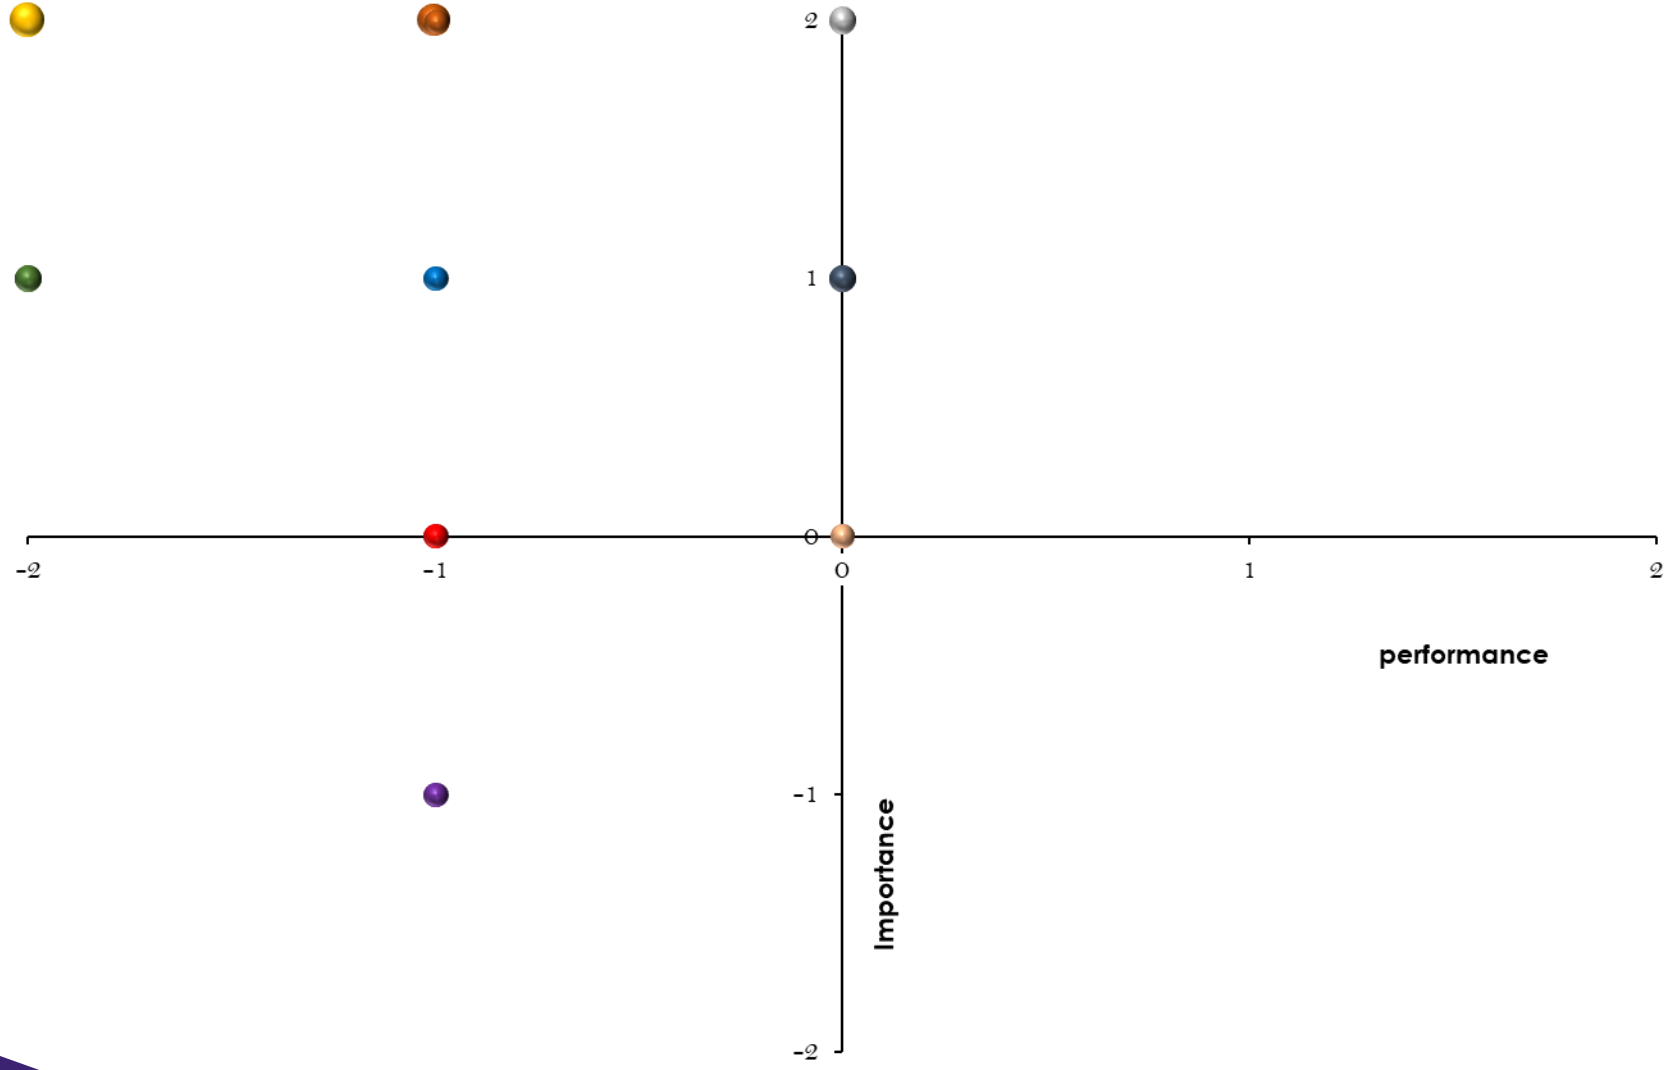

Apparent advantages on financial management and investment attributes

High availability, low effort digital touchpoints with seamless interoperability and integration with physical touchpoints

Back-end systems and teams that respond in a predictable, consistent, transparent and clear manner

Service recovery

CJM-2 :

Branch Visit

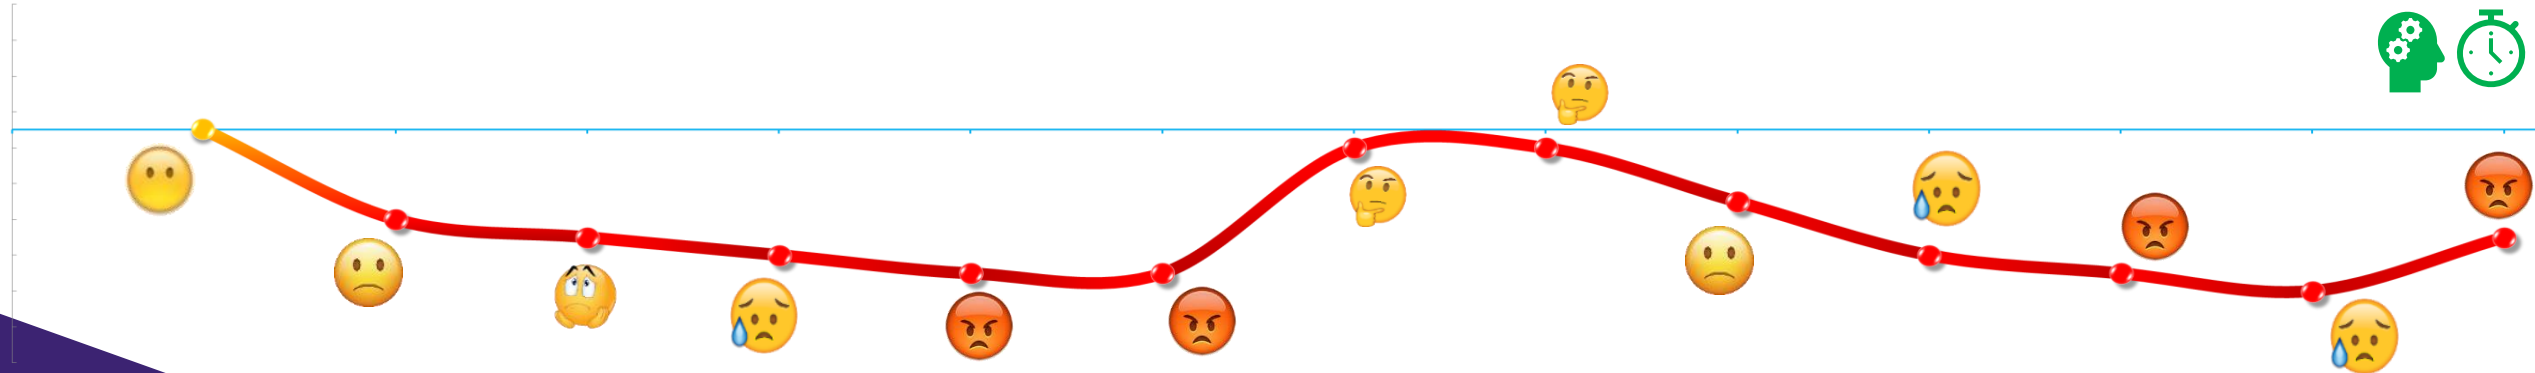

Fixed deposit renewal

PHASES	OFFERS AND PROMOTIONS									
	GIFTS ON SAVING DEPOSIT				LOCKER				AIRPORT LOUNGE	
Actions	Received message stating that customer will receive a gift on depositing Rs. 75,000 in account	Deposited amount; did not receive the gift	Upon enquiry, asked to specify which offer was being referred to	Registered complaint online; wrote email to Shikha Sharma,; no response	Received e-mail from Axis regarding 10-25% discount on locker service for family banking service users	Applied for availing the service; no response	Approached bank manager for update; Branch manager asked to send mail to him	Forwarded same mail 3-4 times; no action	Used card at New Zealand airport to get access to the lounge	Received notification of charges for the same at a later date
Touchpoint										
Thoughts	This is great!	Where is the gift? They had promised a gift but now they seem to have change their mind	Why are they now acting like they don't know about the gifts they offered!! How can they not know which offer the customer is talking about?	Why do they even provide the option of registering complaints online if they are not going to respond? If they are not interested in helping the customers, why should customers keep their money with them? Might as well leave Burgundy	Should try this service	Why are they not responding to the request? Shouldn't Burgundy customers be given premium service? Then why are they ignoring?	They sent the mail about the service and now they are not giving it. Hopefully branch manager will be able to resolve this	Again no response in spite of multiple attempts!! Why are they not taking any action? Why promise if they can't keep their commitments	Thanks to Burgundy lounge access is free, I can use it.	Why they charged for lounge access? They had said it's free for Burgundy customer; HDFC is better than Axis. They give 12 lounge access free. Even SBI also; with Regalia domestic access is free; Axis should look at their competition and redesign their offers. They keep advertising offers but never deliver!! Now to get them to reverse these charges is another headache; better not to use this facility at all
Emotions	Excited	Unhappy	Distrustful	Disengaged,	Excited	Dissatisfied	Disappointed	Unhappy	Satisfied	Angry, Distrustful
Emotion Description		Unhappy due to not receiving promised gift	Distrustful due to unable to deliver what bank had promised	Disengaged due to lack of response on the part of the bank		Dissatisfied due to lack of response on the part of the bank	Disappointed due to lack of response on the part of the bank	Unhappy due to lack of response on the part of the bank		Angry, Distrustful due to having to pay for a service that was claimed to be free

Burgundy credit/debit card | Website | Email | Branch Staff | Call centre | Branch

PHASES	BRANCH VISITS								FIXED DEPOSIT					
Actions	Visited the branch to submit the cheque for credit the petty cash account for daily use	Not attended by the staff; Requested twice	Next day again visited the branch; Submitted 500 cheques of Rs. 10	Informed to put cheque into drop box;	Asked them to give receipt for all cheques or otherwise give the memo for the same	Received call from branch manager; Enquired about the multiple cheques	Branch manager requested to visit the branch to sort the issue.	Met branch manager; complained against staff's treatment towards the customer; gave ultimatum of leaving Burgundy	Applied for FD renewal on maturity; Request not accepted	Visited the branch to check the issue; informed can't renew FD due to KYC issue	Informed issue will be solved from Mumbai office	Received call from branch manager denying the existence of the FD and claiming to be paying free interest on FD for three years	Visited branch; Shared FD number with branch manager to check the FD	Branch manager still unable to find FD details; RM helped close the FD and credit the amount to the account
Touchpoint														
Thoughts	5 mins are left for the branch to close; will quickly submit the cheque; will get cleared by tomorrow…	There's still time before the banking hours end. I will have to come back to the branch because the staff doesn't want to do their job! I will sort them out.	If Axis keeps wasting customer's time, why should the customer not waste their time? Intend to submit 500 cheques for 4 consecutive days; May be this way they will learn to treat the customer with respect.	Why?? When customer is in the branch on time then they should give receipt…Every time staff looks to ease their job not the customer's life… Disgusting behaviour of the staff	Now they will understand how they waste the customers time; Every customer doesn't have a lot of time…	What is this?? Manager didn't help when the staff was not attending to me?? Now what's the use of his call?? If they want the customer to follow the processes & guidelines then they should also follow theirs…	In spite of being a Burgundy customer, branch manager expect me to visit the branch. What is the use of the Burgundy status??	The manager seems to be understanding and seems to have taken the complaint seriously. They better work on improving staff's attitude	What is the issue? Why is it not happening? Why can they not give the reason at the same time when they declined the request. Have to check with the bank before the FD gets matured… Just for this I will have to visit the branch.	Been an Axis customer for 10 years and now they remembered KYC?? Why didn't they check KYC while opening the FD itself? Now when they have to give the money back they are checking KYC!!	If you guys can't solve the issue then how come it will get solved from Mumbai office? This is not the right approach to solve the problems.	What? How can they say that there is no FD. Have documents which can prove that. How can they say such things to the customers?? Outrageous!!	Isn't this bank's responsibility to keep all its customers details even when the staffs changes?? Why should customer suffer if staff is changing?? why is it taking so much time to check a single FD in the system??	If the RM can get this done, why was the branch manager not helping; Is it even safe to keep money in such a bank??
Emotions	Neutral	Unhappy	Anxious	Disgusted	Angry		Frustrated	Unimpressed	Confused	Disappointed	Irritated	frustrated		Distrustful, Angry
Emotion Description		Unhappy due to undesirable attitude of staff	Anxious due to having to unnecessarily waste time	Disgusted due to undesirable attitude of staff	Angry due to not getting the desired services	Angry due to lack of support and clarification	Frustrated due to customer taking more effort to resolve the issue than the bank	Unimpressed due to the staff behaviour	Confused due to lack of update on the process failure	Disappointed due to unable to redeem FD	Irritated due to complexity of the process	frustrated due to false claims made by bank and uncertainty of FD status	frustrated due to the lack of knowledge of the branch official	Distrustful, Angry due to irresponsible behaviour of bank staff

Burgundy RM Branch Branch Staff

Terragni Consulting
Engagement Maximized

DESIRED EXPERIENCE:

RM (Expeditor)
- Decision execution
- Prompt Issue resolution
- Proactive updates
- Contextual updates regarding offerings and services

Highly averse to inconsistency

Low digital affinity

Self service averse

Operational Roadblock

- Branch staff uncooperative and inattentive
- Customer has to visit the branch to resolve the issue
- Unable to receive the service as offered on the mail (sent proof 3-4 times)
- No notification shared by the bank on Airport Lounge access charges
- Lack of proactive updates (branch, staff, top management

Inconsistency with the brand promise

- Branch staff provides no differentiated service to a Burgundy customer
- Charged for the free service (lounge access)
- Unable to deliver locker facility
- No gifts received on deposit as promised

Inconsistency with customer desire, needs and wants

- Customer perceives the branch to be unwilling and unprofessional
- Customer expectations were created by the bank but not delivered on breach of customer trust

Opportunities

Recognition of Burgundy customer at every branch

Apparent advantages on preferential services, loan rates, locker fee discounts, family benefits

Flawless execution of offers and promotions

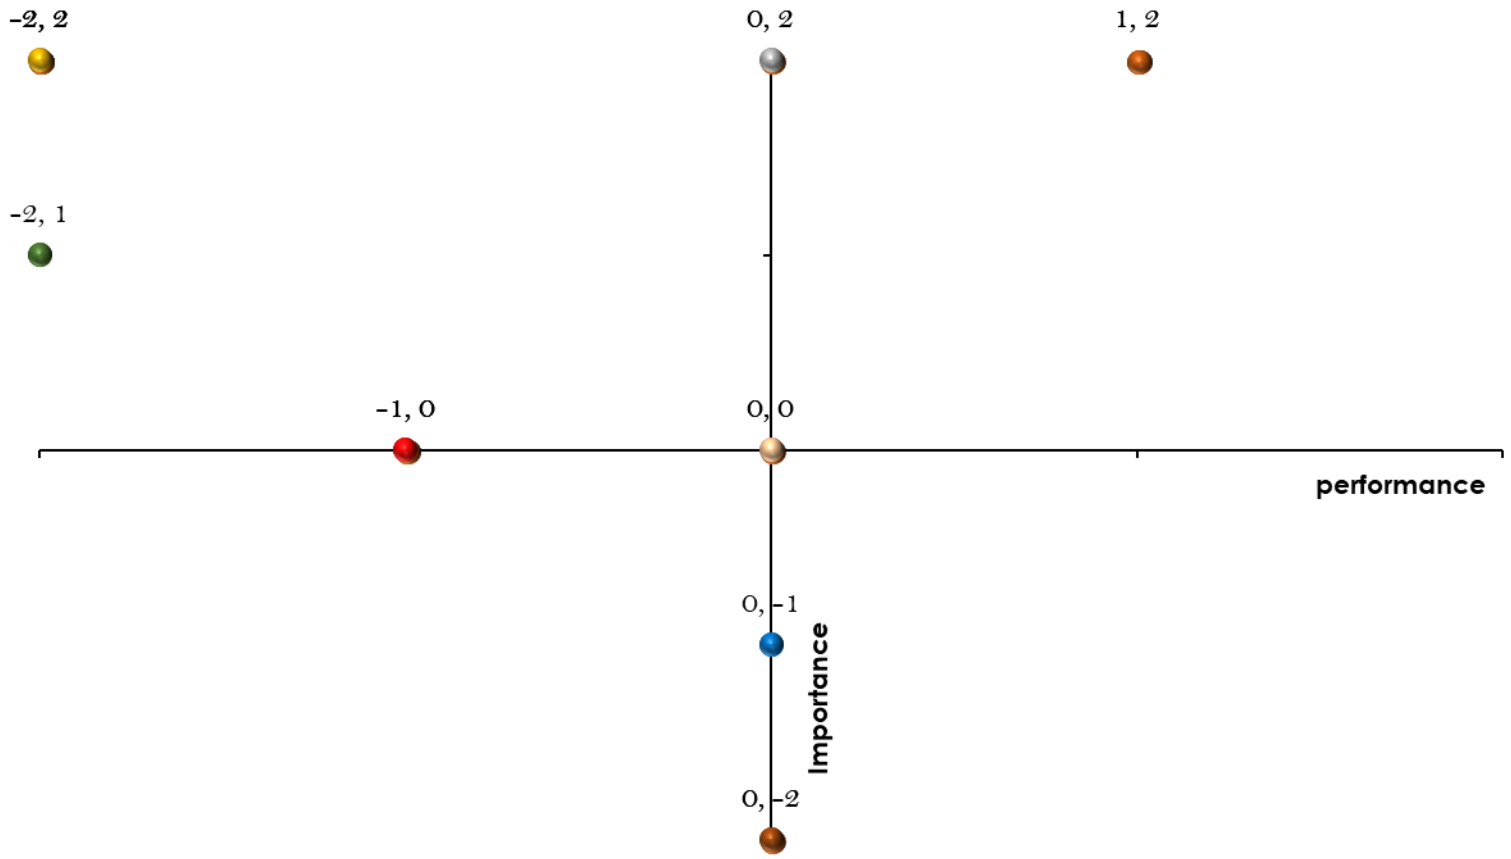

RM, branch and contact centre touchpoints that are knowledgeable about products, offerings and policies and drive quick issue resolution

Predictable and consistent responses from the bank, the branch staff and the RM

Promises create expectations. When delivery does not meet expectation it results in customer disengagement

Under promise over deliver

PHASES	BUSINESS ENABLEMENT									Forex Card			
Actions	Wrote a cheque to transporter; Amount not credited to transporter account	Transporter vehicle loaded and waiting; Informed that cheque had bounced	Enquired with branch; branch informed that registered signature is not tallying with signature on the cheque;	Visited the branch to update the signature; Filled the provided form;	Asked to provide ID proof for verification at Mumbai or Bangalore office	Submitted passport copy; Informed signature on passport is not tallying with new one;	Asked to get affidavit from court;	Continued using old signature	Still some of the cheques are getting rejected	Requested for personalised forex card	Not received the card; Relationship manager (RM) offers the normal card	Again requested to give the personalised one 3 weeks before planned travel; Waited for 3 weeks but still didn't receive the card. No update on why the card is not being given and how long it will take	RM arranged for a normal forex card to be issued as an alternative to help facilitate travel related forex requirement
Touch points													
Thoughts	Why is the amount is not credited? Hope everything is okay. If the payment doesn't go through the transporter wont move the trucks, the business will get stuck	How can the cheque bounce very sure that have money in my account; If they keep bouncing the cheques even when I have money in the account it will ruin our credibility with our vendors; very embarrassing	Every other time cheques are getting stuck. Need to look at this issue	Hopefully, after filing this form next cheques will get cleared.	But why does Head office require the ID proof for the signature update? If the customer is sitting in front of Axis RM and signing the form and has his picture on the passport, why can't the RM just certify the form? Why it has to be sent to another office? If they don't trust their own employees, how can customer trust them???	Even if signature is not matching, Passport has users photo in it, user is present in front of Axis bank then also bank wants more proofs. Not supportive at all	What is this?? For a signature update you require an ID proof and an affidavit from the court as well?!? Too much effort; It's better to shift using old signature on transaction documents	Need to remember old signature just for this purpose .This is very sad that bank can not prove the new signature. Don't have much time to get into it more. Its better to use old signature than putting so much effort in this.	After submitting cheque always worried about whether will receive call from vendor about cheque bouncing	Personalised card is a Burgundy feature. Hopefully will receive the card before travel	Why the card has not come yet? Why RM is offering a normal card? Was told it's complimentary to all the Burgundy customers. Has the bank stopped giving the personalised card? If they say it's a feature, then why are they not giving it? Why are they pushing a normal card to me	What is this? Why the bank did not issue the card yet? Did no one can tell what is the issue? They should ensure that the customer should receive promised services.	Why is it taking so long to process the card? They should have told before hand that it will take so much time, would have looked for better alternative. Why they don't provide quick service to the customer? Don't have option other than regular forex card... won't be able to use the Burgundy offers while overseas
Emotion	Troubled	Embarrassed	unhappy	Hopeful	Irritated	Irritated	Dejected	Frustrated	Stressed	Anticipative	Disappointed	Irritated	Angry
Emotion Description	Troubled because not able to find reason behind failure in payment	Embarrassed because of doubt is occurring on credibility of customer	Unhappy because cheques are getting bounced		Irritated due to irresponsible behaviour of bank staff	Irritated because bank is not helping with the issue	Dejected due to having to unnecessarily waste time	Frustrated because issue didn't get resolve and end up with using old signature to get rid of inconvenience	Stressed because issue remained unsolved and user is going through all pain again after trying to solve issue		Disappointed due to not receiving the promised services	Irritated due to lack of information and delay in the service	Angry due to being unable to get desired card

Branch Cheque Burgundy RM Branch Staff

PHASES	DIGITAL CHANNEL							CREDIT CARD								
Actions	Relationship manager (RM) initially explained how to use mobile application	Used the app to pay bills, to check the statement...	Tried to operate mobile application while travelling; Had to switch to laptop due to network issues	Visited website; Entered customer ID; Password not accepted	Clicked on forgot password? Reset the password	Again tried to login using new password; not accepted	Logged in through debit card using PIN because password was not working	Used credit card for utilities like Petrol, Gas, etc; Visited restaurant; received offer on dining.	Tried paying for hotel booking in US; card denied;	Informed RM; Sent authentication mail; waited for card to get unblocked	Paid for the hotel using colleague's credit card	Finally card unblocked after 24 hours	On returning to India, informed by Axis team to give a pre- intimation before travelling next time	Received SMS regarding amount due on credit card	Received statement after 7 days	Statement included information regarding all interactions with Axis (credit card, demat,etc.)
Touchpoints																
Thoughts	Nice, very easy to use..	This is vey convenient to use.. Everything seems handy... on a click can do the transactions very easily. It saves a lot of time..	Why does the mobile app stop working every time the location or network changes??; is there any issue with the account? Is account blocked?? Whom to ask for help? They should send immediate notification if there is any security concern...	Having trouble in logging in from the laptop as well; Why?? Is account blocked?? Already have fixed password, why not accepting it? Will it get solved by changing the password? Very confusing...	Thankfully have the option to reset the password; resolved without any hassle, the new password should work now	What is this??? Why every time have to reset the password? Is Axis system not able to track the customer details? Such a waste of time! Axis has a great platform but why such issues occur? How can I use the platform if I can't login	Finally logged in successfully; But don't feel secured logging in via debit card every time; they should keep the track of updated login details	Axis credit card offers are standard and similar like others What's the point of giving discounts for standard restaurants.....everyone else does too... No innovative offers ... Wish Axis would think out of the box and design more attractive offers	What the hell is this?? How did the card get blocked? Not carrying any other cards; Did not even receive any call from Axis support. Let me check with the RM, may be they can fix it	Why is it taking so long to unblock the card? Not carrying any other card and don't have much cash either! In US, can't do any transactions without a card! Don't have any clarification on how long to wait for the card to be unblocked. What to do now???	If other bank's card is working, why not Axis? Very embarrassing	Understand the security concern but they took a whole day to unblock it!! What if there was some emergency in the meantime? What should the customer do then??	Being a Burgundy customer, one does not expect to face such issues. Why couldn't they tell this when giving the card itself?? How can the customer be sure that such issues will not occur after giving pre-intimation? Need to work on ensuring ease of use.	It is showing the due amount but cannot find the statement! How will customer come to know what is the detailed outstanding report??	Why does the statement come so late?? They had sent the amount due last week! Shouldn't the SMS and the statement come on the same day. This is dumb!	It's great to have the consolidated statement, but they should also provide an option for separate statements. Don't want to share personal account with office accountant.
Emotions	Curious	Satisfied	Helpless, Concerned	Concerned, worried	Anxious	Stressed	Insecure	Unimpressed	Anxious	Stressed	Embarrassed	Angry	Unhappy	Dissatisfied		Satisfied
Emotion Description			Helpless, Concerned due to lack of operational ease	Concerned, Worried due to lack of clarity on cause of being locked out of account	Anxious due to have to change the password every time	Stressed due to system and process errors	Insecure due to being unable to log in through customer ID	Unimpressed due to the standard offers	Anxious due to unexpected card issues and lack of information regarding cause of card block	Stressed due to uncertainty of card unblocking process status	Embarrassed due to being unable to do payment via own card	Angry due to time taken to complete the process	Unhappy due to operational ease	Dissatisfied due to the incomplete information	Dissatisfied due to the inconsistency of the system & processes

Terragni Consulting
Engagement Maximized

DESIRED EXPERIENCE:

RM (Advisor)
- Decision advice, facilitation and execution
- Regular proactive status updates on issue resolution
- Proactive information on offerings and services

Less averse to inconsistency

High digital affinity

Prefer self service, but need facilitation on self service touchpoints by RM

Operational Roadblock

- No satisfactory resolution provided to issues (signature change, personalised forex card)
- Lack of empowerment at the local branch level
- Unable to use the card overseas
- Inconsistency of system and processes
- Lack of clear indication of cause of issue, steps to resolve issue, timelines

Inconsistency with the brand promise

- Issue resolution, solutions provided do not ease customer's banking transactions, on the contrary, make them more effortful
- Deliverables promised as a part of the program not provided
- Lack of operational ease

Inconsistency with customer desire, needs and wants

- When staff doesn't trust the customer; how can customer trust the bank
- Unexpected card block, cause of embarrassment
- Lack of proactive updates on the status
- Unable to operate via single channel

Opportunities

Investment advice that aligns with goals and readiness for risk

Apparent success of investment decisions taken

Simple, transparent, proactive, reliable, systems and processes

High availability, low effort digital touchpoints with seamless interoperability and integration with physical touchpoints

The first response to issues should be one that will reduce the customer's cognitive load by decreasing

Customer's stress (proactive account updates, helpline information)

Uncertainties (clear indication of cause of issue, resolution steps, timelines)

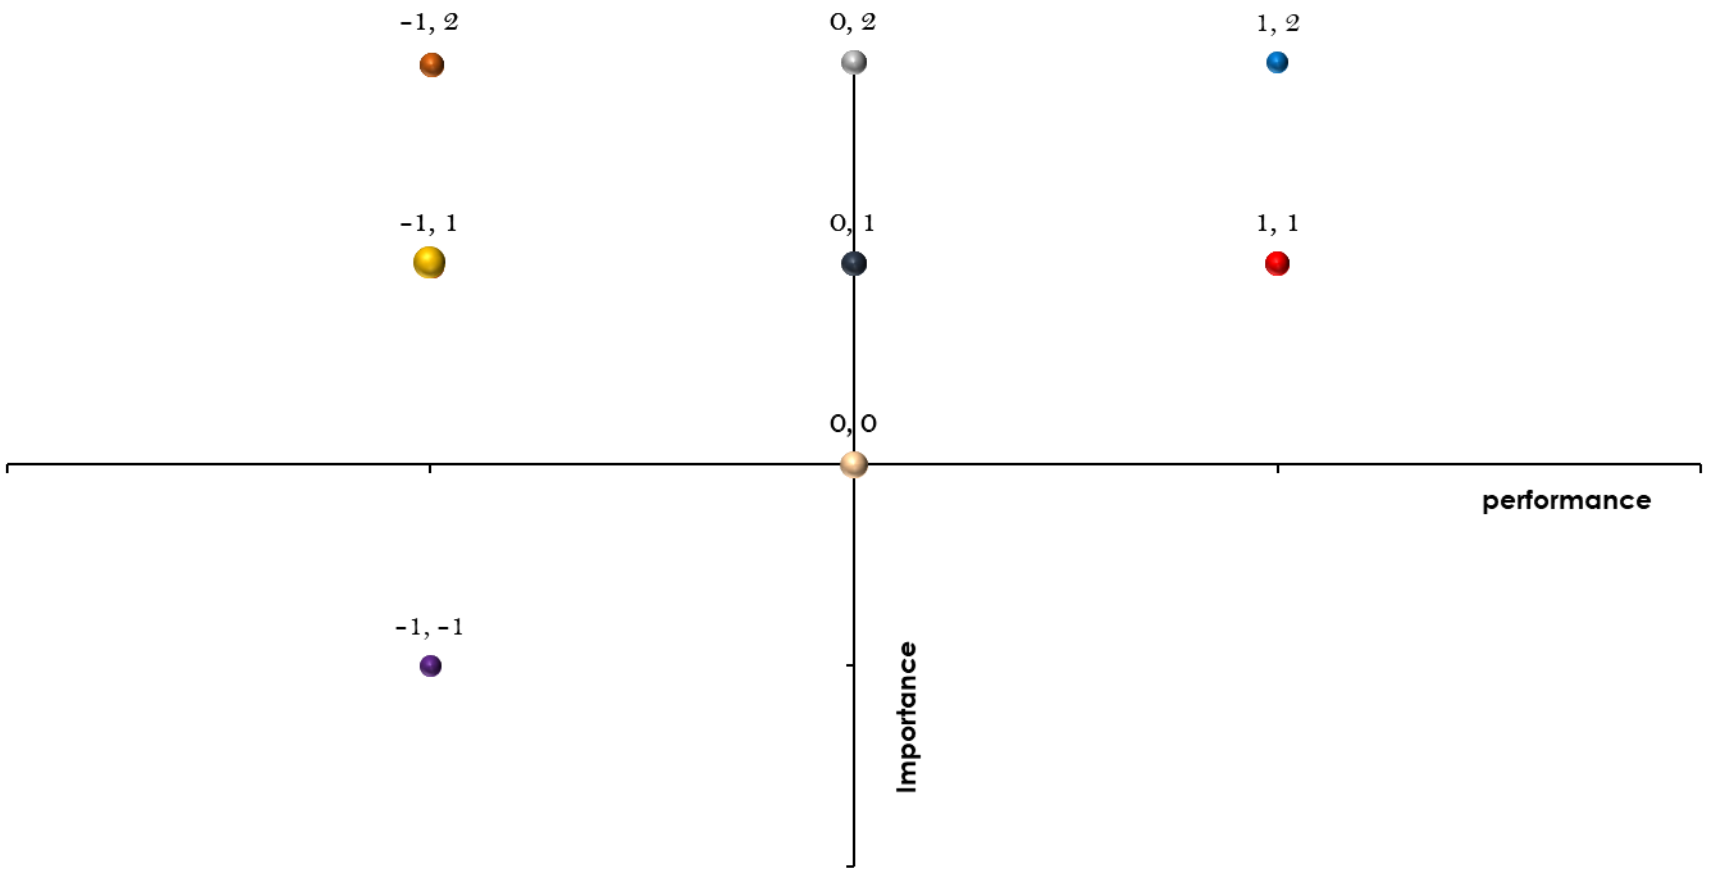

High time and cognitive effort are engagement detractors

Reduce time and cognitive effort for standard deliverables of the program

Empowerment at local branch level

Service recovery

Low Capability Low Time

- Prompt issue resolution(-1,1)
- Consistency of systems and processes (-1,1)
- Consistency of bank and RM(-1,1)

Relationship Manager Support

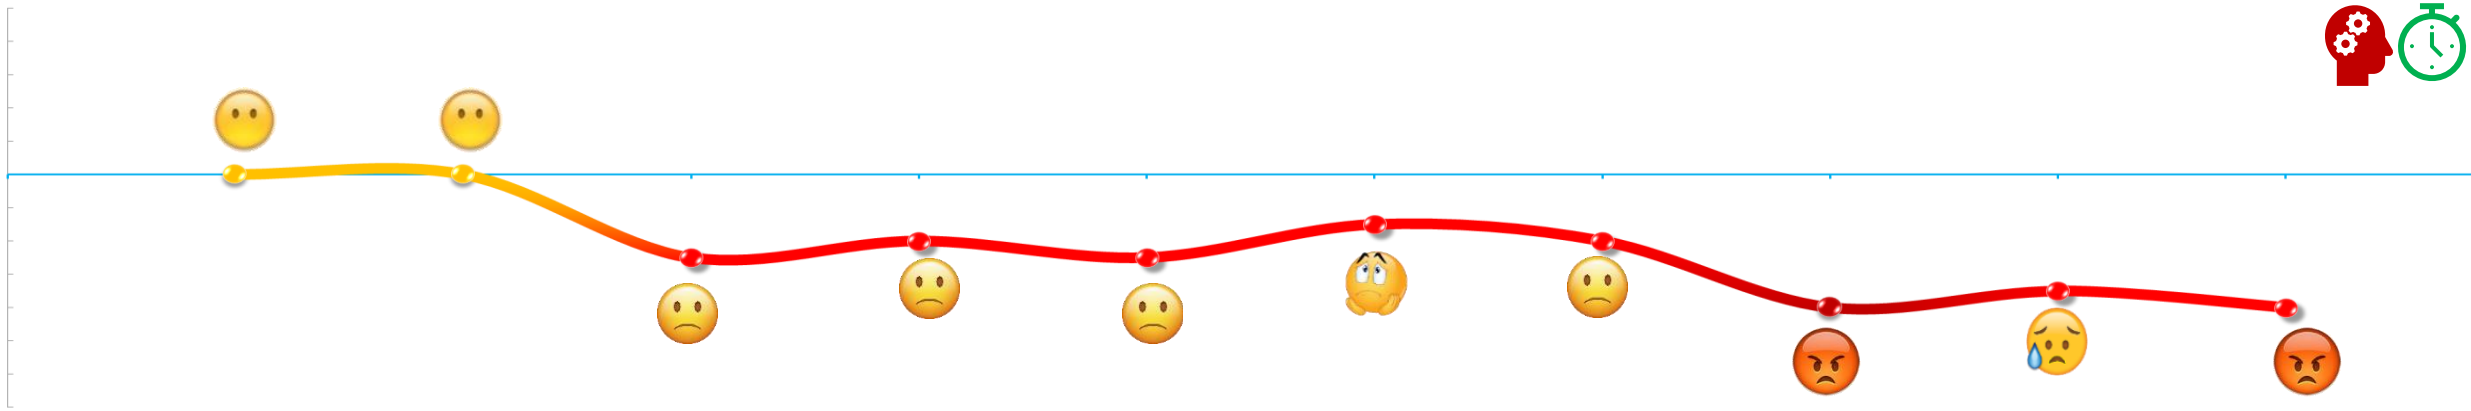

Credit Card

PHASES	INVESTMENT					
Actions	Relationship manager (RM) came home to discuss investments; Showed old investment documents	RM streamlined the old investments; suggested the new investments	RM advised regarding mutual funds;	Started investing accordingly	Tracked status of mutual fund online	Enquired with RM regarding MF's progress; Advised to check online
Touch points						
Thoughts	Hopefully all investments decisions were good; expecting Axis RM to help with exclusive support in investment	That's great! Should have checked portfolio earlier. But RM helped sort things as well as save money! Very supportive!	Don't have any idea regarding mutual fund but It seems attractive. will give it try.	Assume RM has better understanding and awareness about investments. Need RM to explain what is going on. Maybe I will check online	Why not getting any returns? The value of my investment is lower than what I started with? Is it too soon to expect returns or may be it will take time to grow? No idea if my interpretation is right or wrong. Need RM to explain what is going on..	What's the point of asking the RM about the status of mutual fund? If I knew how to track mutual funds online why would I call the RM. Why did the RM help only during making the investment? Why no support post that???
	Anticipating	Happy	Curious	Anticipating	Confused, Worried	Worried, Dejected
Emotion Description					Confused because not able to confirm whether he is thinking in right way or wrong Worried about growth of mutual fund	Unhappy due to lack of proper guidance

Burgundy RM | Website | Email | Branch Staff | Mobile Application

PHASES	CREDIT CARD							
Actions	Approached by Axis representative for non burgundy credit card; Requested time to think about it	Received credit card from Axis bank	Received SMS regarding credit card payment (service fee) being debited to the account	Approached RM to help sort the issue	Charges reversed	Made a new large investment with the bank; received a free credit card after completing one year relationship with bank	Applied for add-on card for daughter;	Still not received the add-on card; waiting since one month. (RM unable to provide a status update)
Touch points								
Thoughts	Benefits are good; let's think about it, but being a Burgundy customer, should have some benefits.	Don't know which credit card this is. hopefully it should not be paid one. Will look at this later.	I asked the representative for time to think and still they went ahead with giving the card without my concurrence and without giving me any information regarding charges. I haven't even use the card and now they are charging for it!! What is the use of Burgundy status if bank is giving a paid credit card	Hopefully this person will help out. If customer is already putting in so much money for Burgundy status, how can you charge them for credit card?? What is the use of Burgundy then?	Thankfully the charges were reversed. But very irresponsible behaviour from Axis. Wasted time on unnecessary things.	Why the bank didn't give the free card at the time of opening the account? Should the customer expect free service only after giving the bank something? The customer is completely squeezed before being given something	Hopefully at least this card will come on time unlike my Burgundy credit card	What is this?? First card was given after completing one year relationship with bank; is bank expecting to invest then will receive the add-on card???? Have to travel next week still no visibility on whether card will be received or not
Emotion	Neutral	Neutral	Unhappy, Disappointed	Unhappy	Dissatisfied	Disappointed, Angry	Irritated	Frustrated
Emotion Description			Unhappy due to bank not following given instructions Disappointed because being burgundy customer, there were no credit card benefits informed or told	Unhappy due to non fulfilment of service expectations	Dissatisfied due to unnecessary wasting of time in follow up for getting money back	Disappointed, Angry due to bank's give and take behaviour	Irritated due to time consuming process	Frustrated because late delivery of add on cards

CREATING ADVANTAGE

CUSTOMER ONBOARDING

KNOWLEDGE

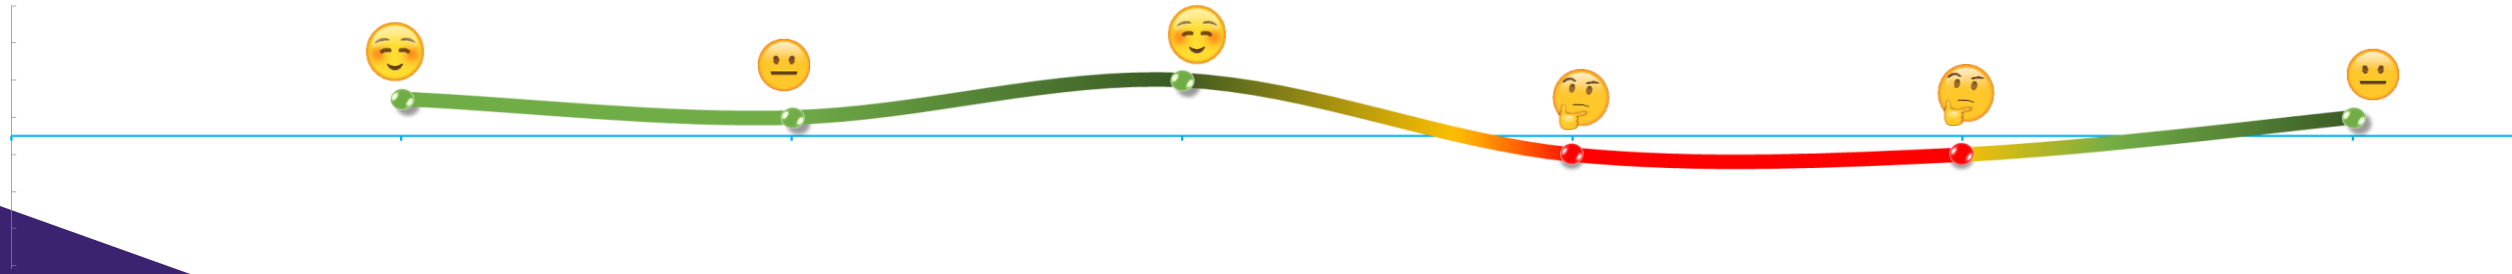

MAKING IT EASY

MAKING IT ATTRACTIVE

Existing Axis bank customer upgraded from Priority to Burgundy

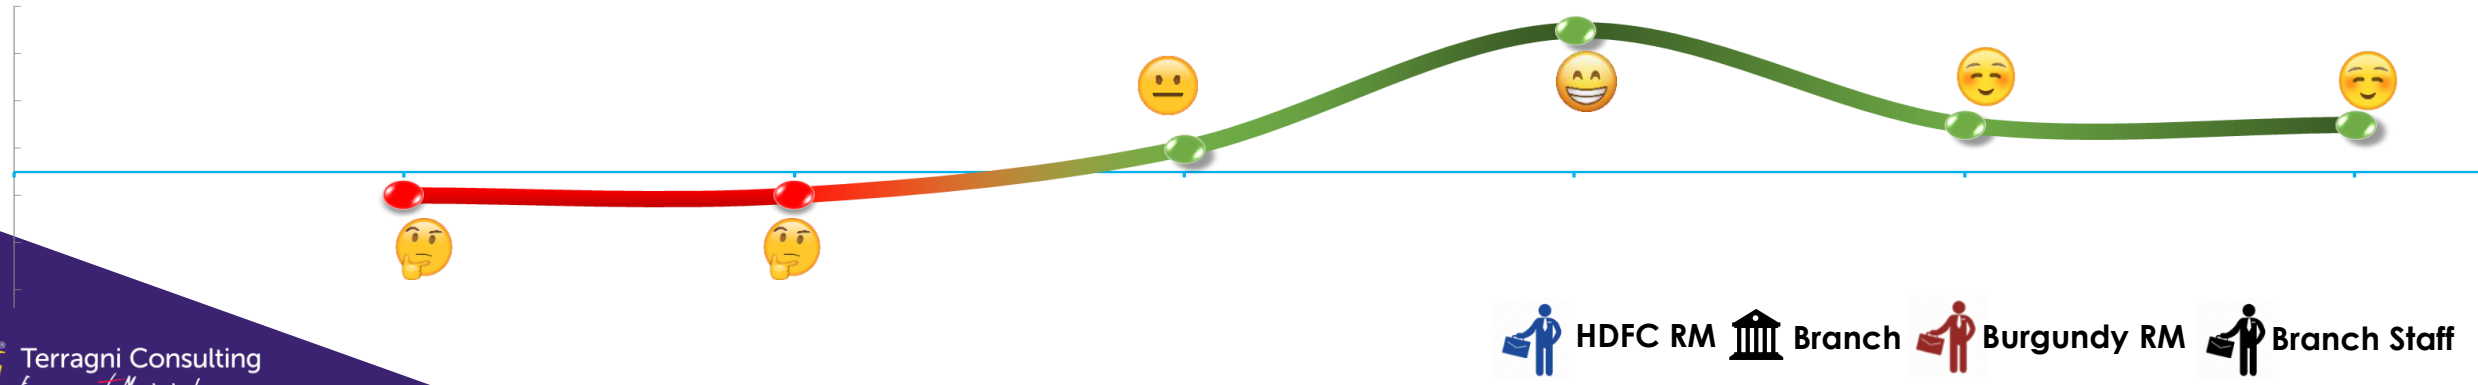

New Customer onboarding journey

PHASES	ONBOARDING PROCESS- EXISTING CUSTOMER					
Actions	Opened account with UTI	Received call from branch representative; informed that account upgraded from priority to Burgundy.	Assigned dedicated relationship manager (RM); RM explained the program	Aware about lounge access, BookMyShow & Golf lesson offers; Asked RM about other offers & benefits	Informed by RM to check website for more offers	Visited website; found information about Burgundy offers not known before
Touchpoint						
Thoughts	Quite happy while banking with Axis; customer since ages; Expect someone to help in terms of investments as money is just lying in account	What is Burgundy; Don't have time to go and check; Maybe branch representative will come and explain	Ohh, Great! Benefits sound interesting; Hopefully won't have to visit the branch anymore! It's a pain to go to the branch. Everything will get done on call; Why didn't they think of doing this earlier?? Hopefully will get the guidance from the bank now	Can't see the difference between the Priority and Burgundy other than name on the debit card; is there anything else as well; Golf lessons don't make sense for me. Let's check with RM…	It seems RM is too busy. What's the point of a dedicated RM? When I have time will check on website or will ask RM again to help exploring the offers & benefits	There are quite a few more offers than what RM had shared. Could be useful…
Emotions	Satisfied	Curious	Hopeful	Unimpressed	Unimpressed	Curious
Emotion Description				Unimpressed due to lack of differentiation	Unimpressed due to inattentive response from RM	

Branch | Burgundy RM | Branch Staff | Website

PHASES	ONBOARDING PROCESS- NEW CUSTOMER					
Actions	Received cheque from daughter's school (deposit refund ~2.5L); Visited Axis branch to open zero balance account; account denied	Again visited and offered to maintain Rs.10000 balance to avail savings account service; account denied again	Approached HDFC Relationship Manager (RM) about opening account; HDFC RM offered to open joint account (joint with spouse)	HDFC RM visited Axis bank; Gave reference to Axis RM and requested to handle the client	Received call from Axis representative to set up meeting; discussed possible investments and wealth growth opportunities	Suggested opening a Burgundy account; opened account as advised
Touchpoint						
Thoughts	Why can't they provide the account?? Bank doesn't require new customers?? Or they don't want to attend?? Maybe it's because I am asking for a zero balance account	What to do now? Don't want to use existing account; want to start a new account; let's check with HDFC	Already have one joint account, don't want to open another joint account, don't they allow to open another solo account? Should look for some other options	Very nice approach by HDFC RM; How RM is helping to solve the issue even if he is not getting any business out of it.	Great discussion why didn't they tell about this when I approached them the first time	Don't know much about banking. Axis RM is very helpful in discussions. I can take my RM's help for my investments
Emotions	Confused	Confused	Curious	Happy	Satisfied	Satisfied
Emotion Description	Confused due to being denied account without any justification	Confused due to being unable to open an account		Happy with HDFC RM for giving preference to customer's needs over profits		

Operational Roadblocks

Program introduction and explanation is limited to reducing bank visits & increasing day-to-day banking ease

RM unable to differentiate Burgundy from Priority as well as competitor programs

RM creates a strong personal connect (*wittingly/unwittingly*), not a systemic connect

Inconsistency with the brand promise

RM focussed on enabling standard transaction, not on information dissemination, pushing the customer to acquire information on their own, leading to confusion, lack of awareness and disengagement

Inconsistency with customer desire, needs and wants

Owing to insufficient knowledge of Burgundy, customer is left in ignorance or has to seek his own knowledge on how best they can benefit from Burgundy

Implications

When a new customer joins the Burgundy program the RM only responds to and takes care of the immediate need of the customer

Customers therefore are not aware of the entire program benefits, features and policies resulting in multiple lost opportunities for engagement

When an ETB customer becomes a Burgundy customer they perceive it as, day-to-day banking being made hassle-free due to the dedicated RM facility

On being asked for recommendations by other potential banking customers, they recommend joining Axis only if Burgundy status is being offered

OPPORTUNITIES

Onboarding is a nudge towards revenue generating options

Give customers context relevant information

Prioritize by making it hierarchical

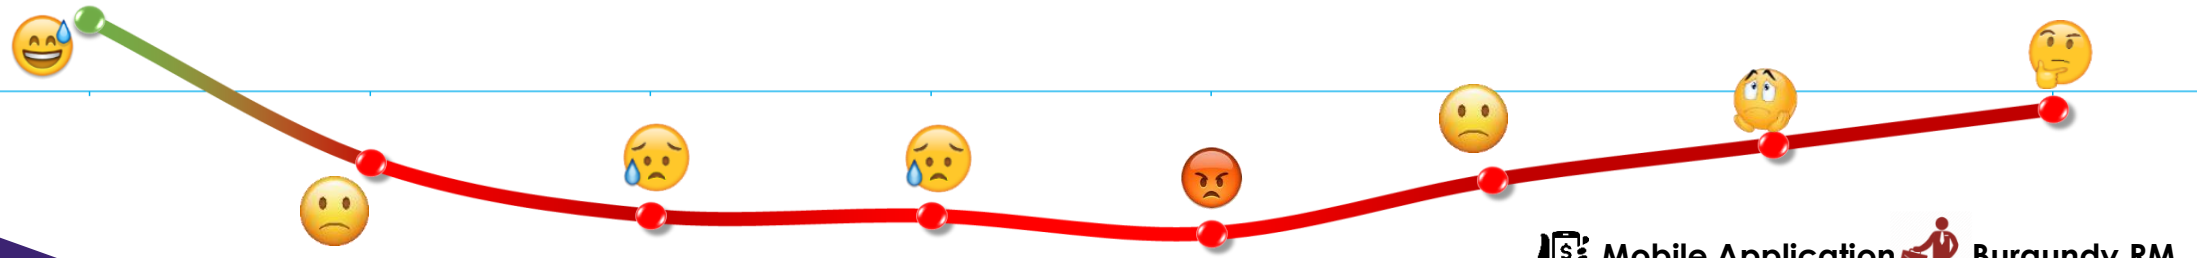

- Benefits whose lack will cause embarrassment and loss of money
- Benefits whose lack will cause loss of time and increased effort
- Other benefits

A new customer needs to first be acquainted with Axis and then Burgundy. Showcase differentiation with customer's other bank

EDGE LOYALTY PROGRAM

Edge loyalty point redemption using mobile application

PHASES	EDGE LOYALTY REWARD POINTS					
Actions	Received Edge Points via various transactions; Checked the points via mobile application	Found that some of the points had expired.	Tried to buy e-voucher for airline ticket using remaining points; no option available; Called RM to check the same (The ticket price had a time bound validity)	Finally redeemed the points; Bought Shoppers Stop and Lifestyle Vouchers; didn't receive the voucher.	Received the vouchers; tried to redeem at Lifestyle; unable to redeem	Redeemed at Shoppers stop
Touchpoint					Lifestyle	Shoppers Stop
Thoughts	Have collected enough points; Wonder what all can be redeemed with them;	How did the points expire?? Did not receive any notification or pre-intimation from the bank about this. How will the customer come to know when the points are getting expired? They didn't even explain it when the account was opened! Very irresponsible!!	Already lost some of the points better to redeem the remaining immediately; Why not able to redeem? What is the issue?? What if ticket rates will change? Can they even be redeemed? It looks like the app is designed in such a way that the customer can't redeem the points.. They should tell the customers how to do it… Axis knows there clientele very well; They should have the option to convert into the miles; When other banks can do that then why not Axis bank??	What is this?? Can the point redemption be done only with the help of RM; no use of digital channel; But why the vouchers have not come yet? Will even get it or not? Are the points redeemable or not? Where to check all of this?? They should send the voucher as soon as redeemed; How long to wait for the voucher? Will it come on email?? No clue	Why the voucher is not accepted at Lifestyle? So many restrictions; Feels like they don't want the customer to use the points	If the points can be used at Shoppers Stop, then why not at Lifestyle?? How customer will come to know which vendor accepts vouchers;
Emotions	Anticipative	Disappointed	Irritated	Irritated	Frustrated, Embarrassed	Troubled, Unsure
Emotion Description		Disappointed due to points expiring and not receiving notification about point expiry	Irritated due to unable to redeem the points with desired options	Irritated due to lack of clarity on the process and uncertainty and delay in the services	Frustrated, Embarrassed due to limitations in points usage	Troubled, Unsure due to limitations in points usage

Mobile Application Burgundy RM

USAGE ISSUES

Lack of awareness about redemption process

Restrictions on where points can be used

Interface issues while redeeming points

Lack of guidance and support from bank and RM

No intimation about points expiry

Edge Loyalty Program is being used as a service recovery mechanism* but high redemption friction is detracting from service recovery as well as engagement with the program

***NOTE: Refer Setting Sail Inputs From Burgundy Team**

We also get reward points, but nobody tells me how to redeem those points and I don't know how to redeem them or whether they can even be redeemed. Even Bank don't send any email regarding reward points redemption

Gender Male
Age 45-55
Age With Burgundy Above 3 Years

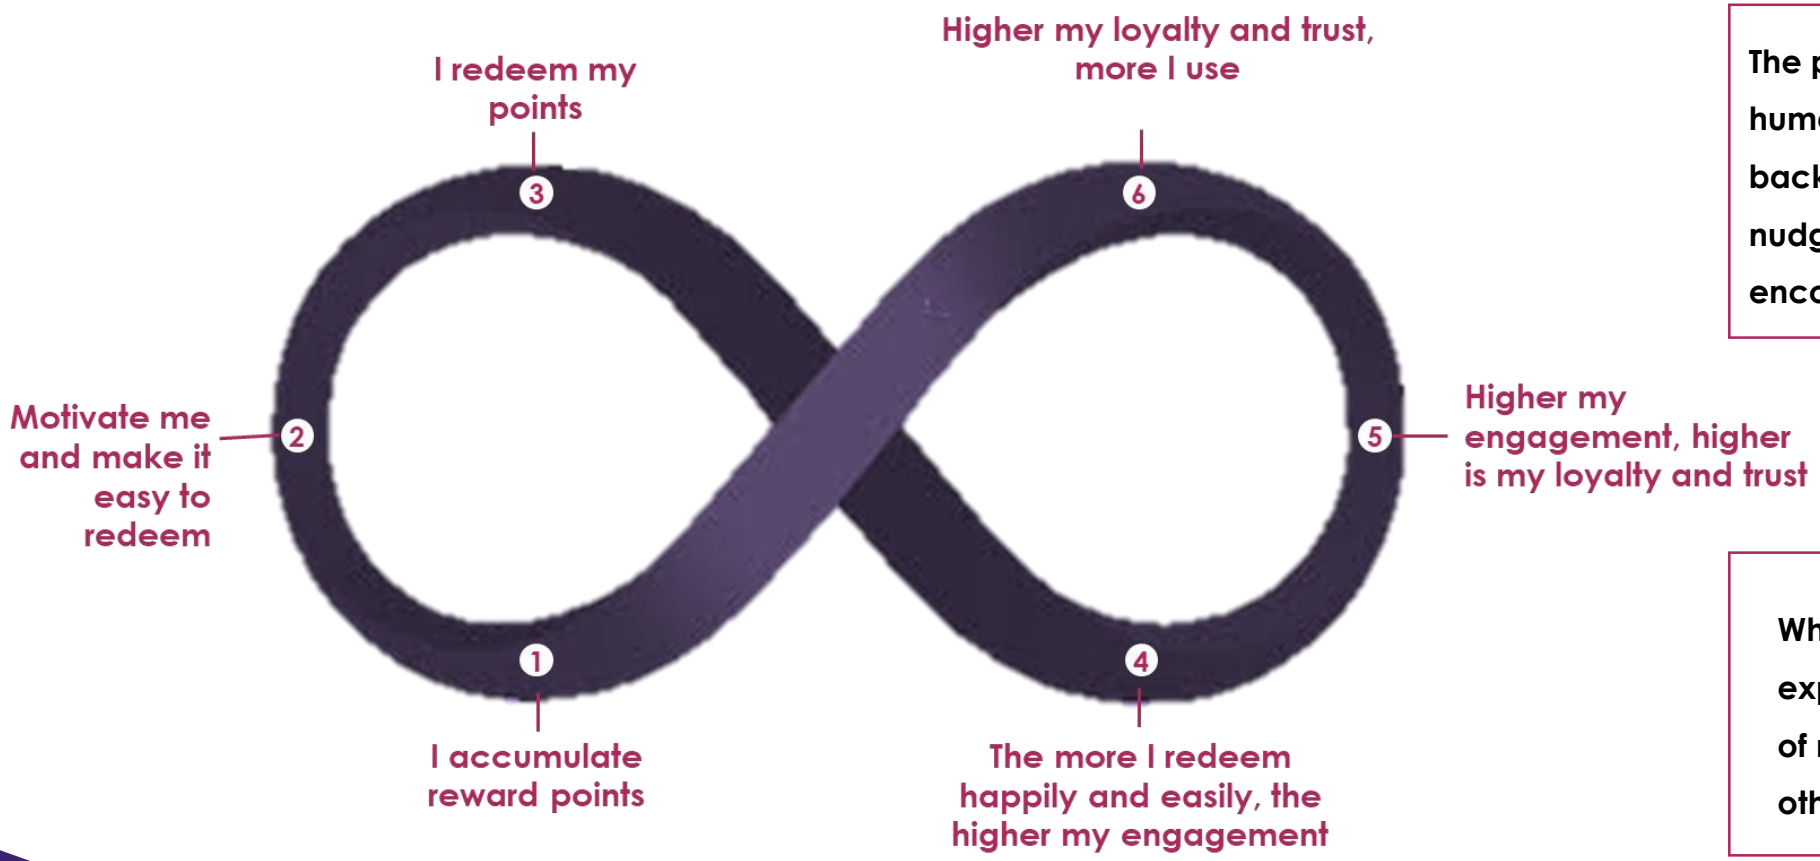

I feel that the app is designed in such a way people get fed up with the edge points and they don't use it I get that kind of feeling

Gender Male
Age 35-45
Age With Burgundy Above 3 Years

I know there are some points that accumulate …, surprisingly all of them were expired. When I checked back, a lot of them were expired. No intimation came to me that your points are expired.

Gender Male
Age 35-45
Age With Burgundy 1.5-2 Years

Nudging customers to redeem & use the Edge Rewards Loyalty Points should be a strategic differentiator

The principle of reciprocity outlines the human tendency to want to give something back when something is received. Thus, nudging the customers to use the points can encouraging them to reciprocate

When the customer uses the points, their experiences can be leveraged as a word of mouth (WOM) encouragement for the other customers

OPPORTUNITIES

Create and communicate a program differentiated for Burgundy customers (status enhancer)

e.g. Provide rewards not available to other customers

Make redemption easy, friction free and consistent

e.g. Ensure RM and systems support and facilitate points redemption

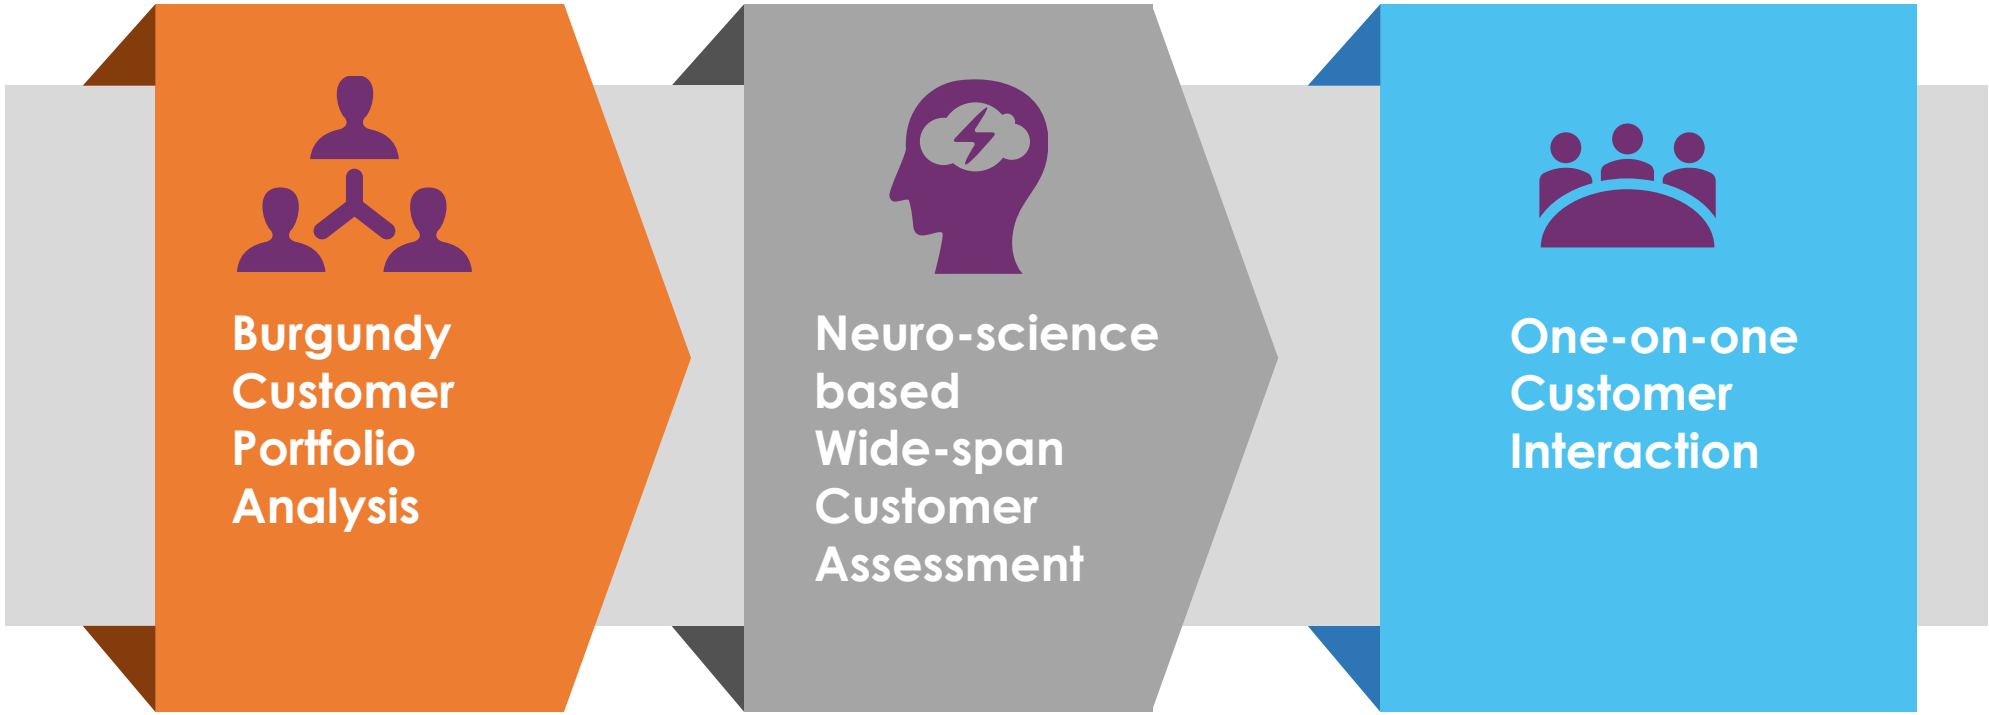

Use the points to drive emotional associations with the emotions of exclusivity, anticipation and joy

CREATING ADVANTAGE

Both touchpoints (*Edge Loyalty Reward Points, Onboarding of customers***), currently taken for granted and seen as inert, can be flipped and used to drive revenue and engagement**
