

TERRAGNI
CONSULTING

the Human Engagement company

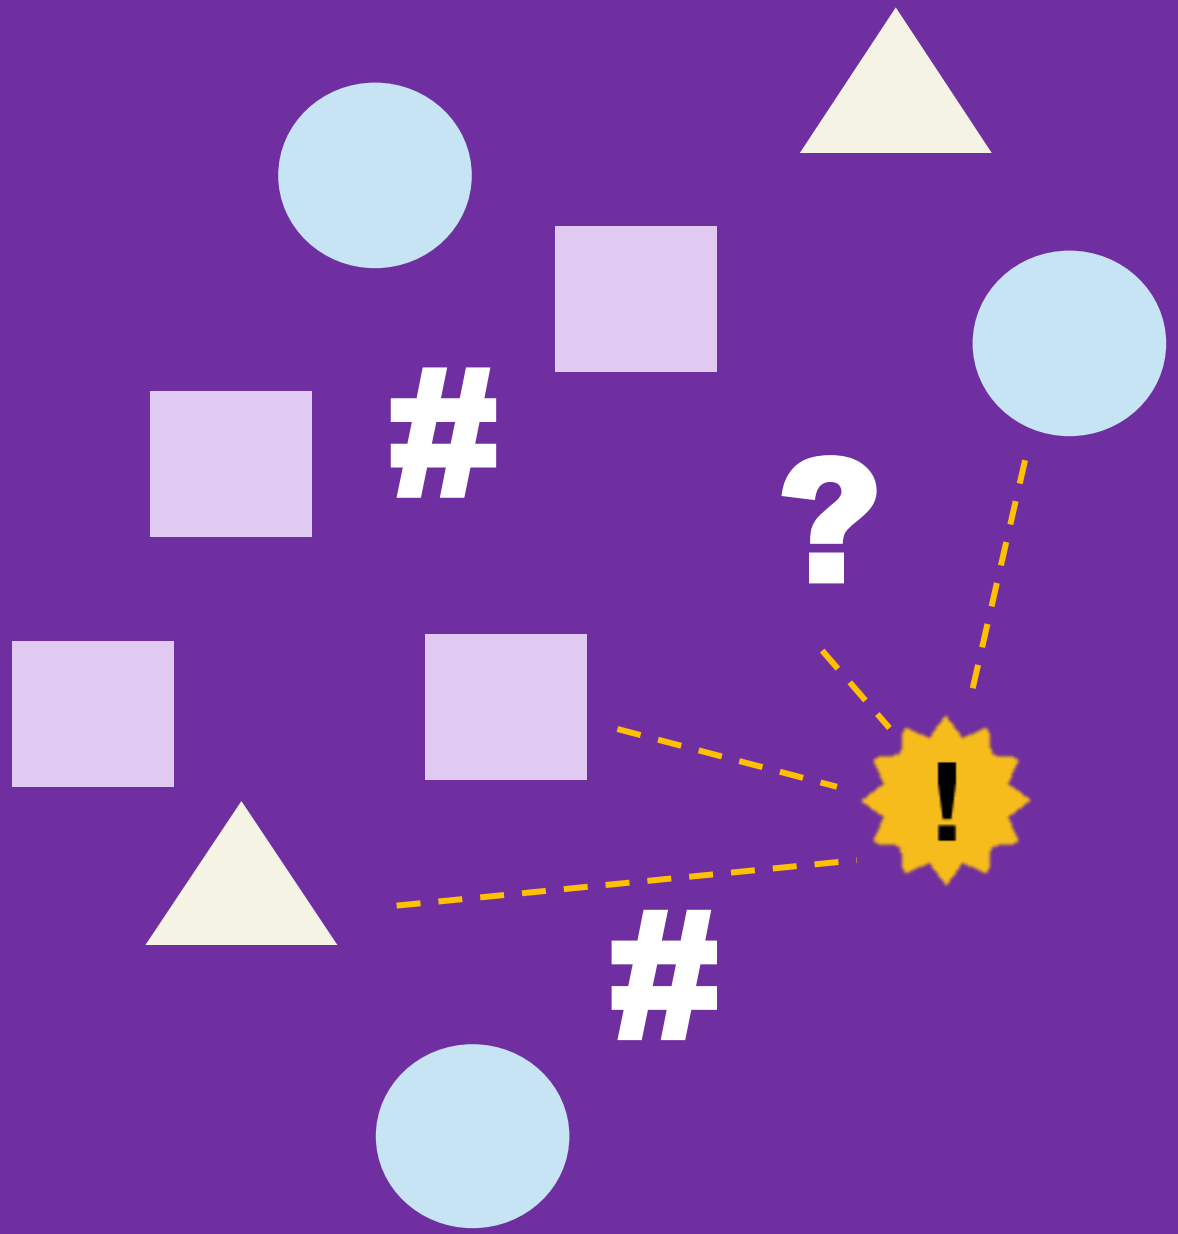

Overwhelmed with data?

Looking for insights?

Worried about the investments required to make sense of your customer data?

Our Lens based "Insights As A Service" practice bridges the gap between data & insights.

The Lens of Insights

Something that helps you make new sense of existing information.

If you gain insight into a complex situation or problem, you gain an accurate and deep understanding of it.

Connecting disparate dots to make sense of information to see and understand the truth about people or situations.

Why do customers engage with you in the manner that they do?

Who are they?

What are their life goals?

What drives decisions?

What behaviours drive revenue growth?

What behaviours cause attrition?

Insights – Unbiased. Contextual. Focused.

An *out-of-the box* multilingual neuroscience powered research platform.

© TERRAGNI CONSULTING (P) LTD PRIVATE AND CONFIDENTIAL

Successful **brands** are those that are customer-centric. These organizations are deeply rooted in driving engagement through insight.

Customer insights start with an understanding of **why** customers favour a brand, then look at **what** services they provide and **how** they engage.

Insights

/ˈɪnsʌɪt/ ***(n)***

Qualitative & Quantitative approaches to uncover hitherto undiscovered customer needs, wants and fears.

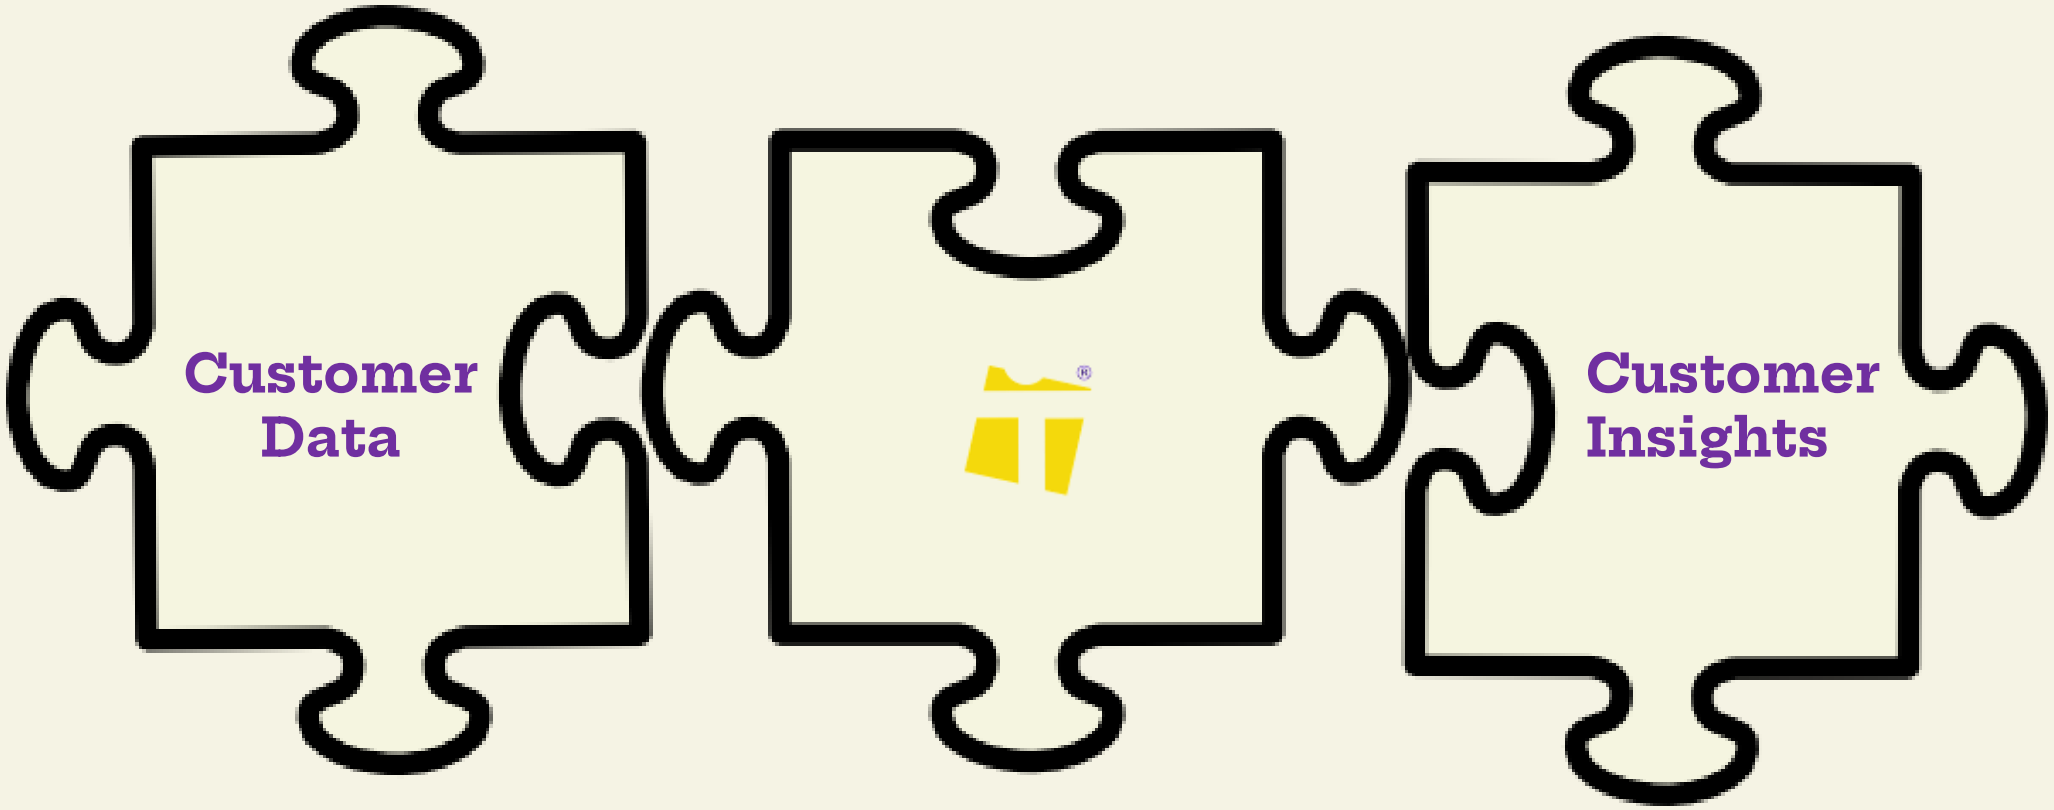

© TERRAGNI CONSULTING (P) LTD PRIVATE AND CONFIDENTIAL

Data + Primary research + Consumer Neuroscience + Observational techniques.*

*NOTE: Lens is configured to work with any one or multiple of these techniques.
